Subject: RE: RI Update

Jim - right now I'm stuck in the surface water section trying to rectify the data set. Some of the database, tables, and language in the RI are not matching the data reports. I need to talk to integral about the data before I can review the language in the document. I'll move forward with the TZW section in the mean time. Still need to do the biota section, too. The way it is looking, Section 5 won't be done until mid Feb.

Subject: RI Update

Good morning Kristine. My weekly project update to the LWG is this morning. How would you like me to address the status of the RI? Section 5 next week and a revised RI schedule by the end of the month? Let me know, thanks!
